Both the Legal Division and Right of Way Division agreed that a further reduction in the award could not be achieved through prosecution of the appeal. Further the courts would allocate interest on the difference between the State's deposit and the amount of any ultimate verdict. The agreement in the sum of $28,000 would therefore be in the best interest of the State. An agreement was secured as follows:

Parcels R5A, 5B, 5C	Raritan Valley Farms, Inc. (A New Jersey Corp.)	Consideration including deposit withdrawn from the court of	$28,000 $19,000

It is recommended that the agreement be approved and that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $9,000 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. Later, during the construction operations, the owner advised that his well was within the area of the taking and that no compensation had been granted to him for this loss.

The State's engineers confirmed the fact that the well was within the taking of these parcels and new maps were furnished which depicted the well which had not previously been shown. The owner was advised to secure two estimates from reputable well-drillers covering a replacement of the well which were in the sum of $2,627. and $1,301. The State's Fair Market Value appraisal contained a clause that no compensation was being made to the owner for any loss or damage sustained by the owner for his well as it was not believed at that time that the well would suffer any damage due to this taking.

Subsequently, during the construction operations, the owner advised that his well was within the slope area and was damaged as a result thereof. The State's engineers confirmed the fact that the well was in the slope area; and new maps were furnished by the engineers which depicted the well within the slope area and which had not previously been shown on the State's General Property Parcel Maps. The owner secured two estimates covering a replacement of the well which were in the sums of $2,627. and $1,301. The owner has executed the attached invoice in the sum of $1,300. which represents full and complete payment for loss of this well which was not considered in the appraisals, the agreement, or the settlement hereinabove referred to.

A complaint was filed on June 13, 1968 and a declaration of taking and court deposit was made on June 25, 1968.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 633A in the place and instead of those previously filed. Re-negotiations were conducted with the owner's agent who refused the suggested settlement in the sum of $15,700. and demanded $45,000. which was considered excessive.

As a result of this injury, the Department of Transportation was required to expend the sum of $7,055.47 for medical treatment and Workmen's Compensation payments on behalf of Mr. Earle.

Investigation by the Claims Bureau disclosed that this accident occurred at an uncontrolled intersection, both drivers received summonses for careless driving, both were found not guilty in magistrate court. Further investigation indicated that Mr. Trehuba was uninsured, without funds, and that substantial claims against him would result in bankruptcy proceedings.

Mr. Earle retained the services of an attorney, suit was instituted against Mr. Trehuba and judgment was eventually entered against Mr. Trehuba in the amount of $2,000.00. Inasmuch as the amount of judgment was far less than the State lien, an offer of settlement was proposed by the attorney representing Mr. Earle in which the State would recover $482.00. Further negotiation with the attorney resulted in an offer of $800.00 in full settlement of the State lien.

Giving due consideration to the foregoing, it is my recommendation the above offer of settlement receive favorable consideration in accordance with Mr. Levine's memorandum dated April 1, 1969, attached hereto, and the recommendation of the New Jersey Department of Transportation Deputy Attorney General. 80 By authority contained in the 1962-1963 Construction Program (Item 43), island closings, jughandles, and resurfacings were scheduled for construction at Route 10, Roxbury, Morris County. Within the reach of this project, jughandles were to be constructed at Commerce Boulevard, Hillside Avenue, and Eyland Avenue. These jughandles required the acquisition of additional right of way.

Authorization was given by the State Highway Commissioner for the acquisition of lands required for the jughandles in accordance with plans prepared by the Department. Properties were either acquired, condemned, or agreements of sales were consummated. Contract plans embracing the aforementioned scope were completed.

Just prior to advertising for bids, the contract was modified as the result of a request from public officials that the work on the jughandle at Hillside Avenue be deferred until a later date.

One of the properties required for the Hillside Avenue jughandle was Parcel 17, whose owner of record was John L. Wright. An agreement of sale had been consummated for Wright's land. As a result of the State Highway Commissioner's order, the Department has no immediate need for Parcel 17, Route 10, Section 1. Condemnation proceedings were authorized by the Commissioner on January 12, 1966 as the owners refused to state a demand. Subsequently, a commission hearing was held on May 16, 1968, and the commissioners rendered an award in the amount of $1,725,000 which was appealed by the State.

On the day of the trial of the appeal but prior to the actual proceedings, the attorneys on both sides conferred with the trial judge in an attempt to reach an amicable settlement. This acquisition involves the valuation of a Junior High School facility being used to full capacity in which the State's registered fair market value is in the sum of $1,200,000 while the Passaic Board of Education was prepared to testify to $2,200,000. Among the differences in the opinions of value as presented by the State and the City was the owner's position that to be made whole the principle of substitution as related to land value applied as they would have to construct a replacement facility for this special purpose public property.

After review by the Right of Way Division and discussion with the Commissioner's office of all phases involved in the Trial Attorney's legal statement and opinion that the appeal would not result in a figure less than the proposed settlement, the matter was discussed by the Right of Way Director with both the Assistant Commissioner of Highways and the Commissioner of Transportation, and it was the total consensus that the proposed agreement in the amount of $1,550,000 was in the overall public interest.

Continued negotiations with the Board of Education have resulted in the execution of an agreement as follows:

Parcels 133B & 133C	Board of Education of Passaic	Consideration: $1,550,000.

Including $940,000 previously withdrawn from court.

The parcels have been appraised and the Reviewer's registered fair market value determination is in the sum of $1,200,000. Both the Legal Division and the Right of Way Division mutually agree that the administrative settlement is both reasonable and equitable to the Passaic Board of Education and the State, and approval is recommended.

It is also recommended that the condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $610,000 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or sealed bids. **(April 24, 1969)**

The parcel designation became R24 and an agreement was approved by the Commissioner on March 28, 1967.**

102 There is presented again the matter of acquisition of property on Route U.S. 9 (1953), Section 23, Federal Project F-181-(10), From Route 33 to Gordons Corner, Parcel 31, Dr. Cornelius Shephard Meeker. On January 25, 1965 the Commissioner authorized the institution of condemnation proceedings, based on our Title Officer's examination of the title, which had disclosed that this parcel lies entirely within the bed of a private lane over which various owners to the rear have a perpetual easement. The owner advised that he was not in a position to clear the title of such interest.

Our Title Bureau, on March 28, 1969, furnished the results of new information developed by further investigation of the circumstances and they report that this private lane, which includes the parcel in question, is several miles in length and at its farthest end divides three ways, one of which connects with another public road. In the course of time the lane has lost its private nature and by general usage, has developed into a public right of way. This being the case, it appears that no private ownership, if any should remain, would be of any compensable value.

In view of our Title Officer's opinion, authority is, therefore, requested to eliminate this parcel and to delete same from the General Property Parcel Map. The owner has been advised and, to date, has offered no objection.

Further authority is requested to discontinue the condemnation proceedings previously authorized on January 25, 1965. (May 5, 1969)

The State's Registered Fair Market Value of $250. was offered to and refused by the owner. The owner refuses to negotiate at this time pending receipt of an appraisal.

Should, prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $250. Right of Way - Route 287

97 There are presented report and appraisal with map and description on Route 287 (1953), Section 10, Federal-aid Project I-287-2-(14), from Route 24 to Route 10; Parcel UE131B, Charles Lampert & Rose M. Lampert, h/w; et al.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $250.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this utility easement needed for the relocation of facilities of the Town of Morristown. The owner refused an offer of $250. and demanded $75,000 for Parcels 131A and UE131B which was considered excessive.

Should, prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof for the relocation of the facilities of the Town of Morristown, authority is requested to then file a declaration of taking and deposit with the Court $250. The Division of Design is in the process of drafting a Public Utility Agreement with the Town of Morristown.

Said Parcel UE131B being required to relocate the Town of Morristown facilities, further authority is requested to convey said parcel to the Town of Morristown at such time as a utility agreement has been consummated which provides for said conveyance. (May 14, 1969)

Right of Way - Route 295

98 There is presented again the matter of acquisition of property on Route 295 (1953) Section 3, Project I-295-2-(29), From Marne Highway to Mt. Holly-Burlington Road, Parcels 15A, 15B, 15C and remnant of 15A, Anna Cooper Ryan.

An agreement to convey title free and clear of all encumbrances was secured from Anna Cooper Ryan and Clifford Ryan, her husband, in the amount of $3,000.00, which was approved by the Assistant Commissioner, Highways on May 2, 1968.

An examination of title discloses an open reimbursement agreement recovered by the County Welfare Board of Burlington County vs. Ferdinant Stehlgens, a former owner, dated July 25, 1938, entered and docketed in the Burlington County Clerk's Office in Book D of Reimbursement Agreements, Page 32, on January 5, 1939.

There is a question as to the validity of this lien, and the owner's attorney has offered to purchase a Title Insurance Policy to protect and save the State from any loss if this outstanding lien proves valid.

Authority is requested to accept and record the deed with payment to be made to the owner upon the owner furnishing the State with the Title Insurance Policy. (May 14, 1969)

Should, prior to the ultimate fixing of compensation, any provision or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2,200.

Prior to the submission of this agreement to the Commissioner, we were advised that due to the lack of landscape funds all Right of Way activity on this route and section were to be withheld until the financial status on these landscape projects have been resolved.

In the interim our field office reports that this owner was conveying various portions and improvements were being erected on same. There is presented here the matter of the appeal by the state from an award of Commissioners in the amount of $21,300.00 in the condemnation of property on Route 55F, Section 6, Parcel 15B owned by George McCloskey.

At the trial and after selection of a jury and opening addresses by both counsels, the court declared a recess in an effort to settle the matter. The complaint was filed June 25, 1966; a deposit of $15,900.00 was made on October 7, 1966. The Fair Market Value is $15,900.00. The state was prepared to testify to $16,245.00. Approval of settlement in the amount of $63,000.00 is recommended on the grounds that it is not unreasonably in excess of the stated Fair Market Value. Right of Way - Route 23

47 At an indefinite future date, the State proposes to widen and dualize Route 23 north of the Route 80 - 46 - 23 Interchange. The area of proposed widening intersects a local Urban Renewal area now approved by the Federal Department of Housing and Urban Development for acquisitions.

To avoid duplication of effort, possible double severance damages and even the possibility of the State later having to acquire expensive redeveloped renewal improvements in the form of new industries, office buildings, etc., a form of agreement has been developed.

This agreement is not binding on the State until and unless the Route 23 Highway project is actually programmed for acquisition. At that time, the form of agreement permits the State the option of acquiring at Federal cost (and at prices approved by the State in advance) those portions of the Urban Renewal project which will be needed for the Highway. Under the agreement format, the local Urban Renewal Authority will also provide relocation assistance in accordance with the Federal Department of Housing and Urban Development requirements.

As this procedure appears in the public interest, approval and execution of the cooperative agreement presented herewith is recommended. (June 6, 1969)

Claims Against Contractors By Third Parties

For many years it has been Departmental practice to withhold from Contractors, monies equal to twice the amount of claims submitted to the Department against the Contractor by third parties such as subcontractors, material supplies, etc.

On May 28, 1969, in accordance with policy established by the Commissioner as per Assistant Commissioner Mullen's memorandum dated March 28, 1969 to Mr. Paul Bridegum (copy attached), the Departmental Claims Committee considered the matter of monies being withheld by the Department due to claims against the Contractor by third parties for two projects, Route 23, Section 5A & 4A and Route 295, Section 1R. The Claims Committee recommended that in the instance where claims against the Contractor are in litigation, these claims are no longer considered "outstanding claims" and the withheld monies shall be released by the Department. In the instance where claims by third parties are disputed by the Contractor in writing, the Claims Committee recommended that the Department send the claimant a letter as per Department Counsel Biederman's memorandum dated May 29, 1969 (copy attached) and that the Department withhold monies amounting to the disputed claim times two (2) until the claim is in litigation, or for a period of sixty days subsequent to sending the letter, whichever is less, after the expiration of which all monies due the Contractor shall be released.

The approval of these recommendations was recommended to the Commissioner by the State Highway Engineer and the Assistant Commissioner, Highways and was approved by the Commissioner, Department of Transportation.

In view of the foregoing, it is recommended that the Director, Division of Accounting and Auditing, be directed to proceed in the matter of all claims entered with the Department by third parties against Contractors in accordance with the approved Claims Committee recommendations aforesaid. Utilities - Route 280, Section 3B and 4C
New Jersey Bell Telephone Company

17 Original Order No. PUO-4-280-3B & 4C authorized the New Jersey Bell Telephone Company to relocate existing telephone facilities, to accommodate the construction of Freeway Interstate Route 280, Section 3B and 4C. At the time of preparation (summer of 1964) the detailed estimate, covering the work authorized indicated that the cost would be $20,400 (including 10% for contingencies). However, the actual cost of the work performed was $23,532.61 or an excess of $3,132.61. This excess was due to the increase of labor and material costs for the time of the original estimate (1964) and the time the actual relocation work was accomplished (1965-1966). It is therefore recommended that an additional amount of $3,132.61 be set up to cover the actual work performed by the New Jersey Bell Telephone Company. (June 19, 1969)

Right of Way Items

General Property Parcel Map Route 295, Section 9

57 There is presented a General Property Parcel Map on Route 295, Section 9 Route U.S. 1 to Route 95, Control Section 1138-402, Federal Project I-295-2-(54) showing right of way to be acquired, together with Processing Form from Mr. Schonwald which has been approved by Messrs. Cunningham and Schuyler.

It is recommended that this General Property Parcel Map be approved subject to such changes as may be necessary in order to conform with construction plans as finally adopted and approved; and that authority be granted to negotiate for the acquisition of the necessary right of way.

Heretofore, General Property Parcel Map on Route 129 Freeway, Section 3, Federal City Road to Route U.S. 1 was approved by the then State Highway Commissioner and the sum of $940,000.00 was set up to cover the estimated cost. A project agreement was secured from the Bureau of Public Roads in this amount using 50/50 Urban Funds U-203-(6).

Subsequently Route 129 Freeway, Section 3 was re-designated as Route 295, Section 9 in order to meet the Interstate standards. The alignment of 129 Freeway was broadened in scope and the total estimated cost of right of way was increased from $940,000.00 to $2,500,000.00, leaving a deficit of $1,560,000.00 in this project needed to complete right of way acquisition.

Since a project agreement was executed on Route 129 Freeway, Section 3, Federal Project U-203-(6) and since Federal Aid participation can not be changed, this Interstate project, now designated as Federal Project I-295-2-(54), instead of being 90/10 participation will be 50/50 participation.

Of the $1,560,000.00 of Interstate (50/50) Funds needed the sum of $780,000.00 has been made available, therefore authority is requested to transmit the plans and data to the Bureau of Public Roads for approval and commitment of funds. Upon notice of approval and commitment of funds by the Bureau of Public Roads, authority is requested to concurrently set up the sum of $780,000.00 from funds available under Item 37 of the 1969 Construction Program . It is to be noted, that when funds become available or when Right of Way needs the remainder of the estimated cost, those funds will then be set up.

Included in the above is the sum of $40,000.00 for Appraisal fees and $10,000.00 for taxes. (June 23, 1969)

Negotiations were delayed by reason of parcel revisions and design matters relating to protection of the reservoir which was prior to the statute permitting court deposits and Declarations of Taking. The case was submitted for condemnation in 1966 at which time the City demanded $1,125,000 which was considered excessive and contested in court the State's right to condemn. A complaint and a court deposit were made on June 21, 1967 in the amount of $210,000 representing the fair market value.

This is an extremely complicated acquisition due to the size, nature and the potential effect on the Jersey City Water supply. Negotiations were conducted during the East Coast drought years, and if the State initiated condemnation it would be in a serious position as any condemnation commission or jury would be hypersensitive to the critical importance of continuous adequate supply of potable water to one of New Jersey's major and largest cities.

Subsequent to the filing of a complaint the appraisals were up-dated to the date of complaint and the fair market value was established in the amount of $315,000. Interest now due the City amounts to over $100,000 if this proceeded to a hearing.

The Mayor of Jersey City indicated that the city would accept a settlement including all claims against the State in the amount of $425,000. If this proceeded to a hearing and trial even if an award or judgment on appeal were in the exact amount of the State's testimony interest would be allocated by the court which would be equal to the proposed settlement.

Continued negotiations have resulted in the execution of an agreement as follows:

Section 12 Parcels R12A,12B,12C Section 13 Parcel 10A	City of Jersey City (A Municipal Corporation of N.J.)	Consideration $425,000 including deposit withdrawn from the court of $210,000

The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $315,000. The agreement is considered to be just and fair and in the total overall public interest. Approval is recommended.

It is further recommended that condemnation proceedings previously authorized be rescinded. Further authority is requested to make payment of the sum of $215,000, representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the Court.

Authority is also requested to withdraw the amount of $105,000 from Court.

72 There is presented again the matter of acquisition of property on Route 23, Section 5, Federal-aid Project F-46-(45), from Canistear Road to Union Valley Road, Parcel 29, Edna R. Meyer, widow. Condemnation proceedings were previously authorized for Parcel 29 on February 21, 1964. A complaint was filed on November 4, 1964 and a court deposit in the sum of $5,000 was made on November 21, 1967. Subsequently, the parcel was revised by the engineers to R29 to indicate the as-built construction plans.

The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $7,000. Continued negotiations resulted in the owner refusing the suggested settlement of $7,000 and demanding $39,000 which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R29 in fee simple, subject to any public utilities existing in the premises and that condemnation proceedings previously authorized for Parcel 29 be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R29 in the place and instead of those previously filed. Authority is requested to deposit an additional $2,000 with the Superior Court which when combined with the $5,000 already on deposit will make a total deposit of $7,000. (June 19, 1969)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court $2,200. (June 19, 1969)

Right of Way - Route 78

74 There is presented again the matter of condemnation of property on Route 78, Section 3D, Federal Aid Project I-78-3-(4), Lamington River to Route 287. Condemnation proceedings were previously authorized for Parcels 9A & 9B on July 27, 1965 for Old Bunn Farm Company, A Partnership of the State of New Jersey, c/o Reynolds I. Howell. Fair Market Value for these parcels was $17,400. Owners' demand was $33,000.

As a result of a map revision and subsequent increase in taking area, the parcels became designated as Parcels R9A, 9B and a landscape parcel known as LR9C was added. Appraisals were amended and Fair Market Value re-registered in the amount of $31,800 on May 5, 1969. Owners demand was $34,000 for Parcels R9A & 9B.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels R9A, 9B & LR9C in fee simple, subject to any public utilities existing in the premises; and that the previous action of July 27, 1965 for Parcels 9A & 9B be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and descriptions of Parcels R9A, 9B and LR9C in the place and instead of those previously filed.

Inasmuch as the sum of $17,400 for Parcels 9A and 9B was previously deposited authority is now requested to deposit an additional $14,400 in the Superior Court making a total of $31,800 on deposit. (June 23, 1969)

Since the owner's access will be cut off due to construction in the area, it is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. Owner's refused State's offer of $12,000.00 for the entire property and refused to state a demand.

Should, prior to the ultimate fixing of compensation, any provisions, or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $12,000.00.

✓ Right of Way - Route 280

75 There is presented a report concerning the matter of relocation payment for Mr. Henry E. Becker, an owner on Route 280, Section 2, Project I-280-6-(25), from Passaic River to Laurel Avenue, Parcel 26D.

Mr. Becker moved his personal property from within the right of way in May, 1967. After moving, a sworn affidavit was presented covering the relocation cost. The owner did not comply with our procedures and submit two estimates prior to the move.

There are extenuating circumstances present in this case. Mr. Becker was not afforded the opportunity of submitting two estimates to this office for approval because we did not have knowledge of his occupancy on the above stated parcel. The amount of $3,000 for the removal of railroad tracks and assorted equipment is a reasonable amount to pay for this business relocation.

Authority is requested to make payment to Mr. Henry E. Becker in the amount of $3,000 based on the sworn affidavit that has been submitted. (June 19, 1969)

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The registered Fair Market Value of $2600 was offered to and refused by the owner, whose demand of $6000 is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2600.

Upon taking of possession, authority is requested to dispose of the free-standing display sign to the road contractor, by public auction, or by sealed bids. (June 19, 1969)

Claims - Settlement

8 The Department of Transportation is carrying a claim against Robert H. Neilsen in the amount of $103.49 arising out of an accident occurring on April 9, 1966 involving a vehicle owned and operated by Mr. Neilsen. As the result of said accident, five guard rails had to be replaced and three guard rails reset. All efforts to collect this claim through correspondence proved unsuccessful. Suit was therefore instituted by the Claims Bureau in the Morris County District Court in an effort to recover the amount of $103.49.

Investigation disclosed that the vehicle involved was a 1959 Chevrolet and Mr. Neilsen was uninsured at the time of the accident. At the time of the investigation Mr. Neilsen was unemployed, crippled and was confined to a wheelchair. After the suit was instituted Mr. Neilson contacted the Claims Bureau in an effort to work out a settlement of the claim. Mr. Neilsen advised that he had been offered a job and would make an effort to settle the claim as soon as he returned to gainful employment.

In view of his physical and financial circumstances, the Claims Bureau advised Mr. Neilsen that if the case could be settled by a lump sum settlement prior to trial we would accept $50.00 in settlement of this claim. The debtor has now furnished this office with a money order in the amount of $50.00 and in view of the foregoing it is our recommendation that this amount be accepted in full settlement of the State's claim and in accordance with Mr. Levine's memorandum attached, [illegible] and the approval of Deputy Attorney General William J. McCormack.

This manual contains the proposed new Departmental procedures covering relocation assistance, owner and tenant supplemental payments, moving reimbursements and title conveyancing costs, as well as property rental and disposition procedures and is intended to supersede and replace the previous manuals and subsequent revisions, "Operational Guide Lines for Relocation Advisory Service and Reimbursement of Moving Costs", initially approved by the State Highway Commissioner on January 31, 1963 and amended by Commission Action approved January 12, 1968, and, "Operating Guide Lines for Property Section Improvement Disposition Office". This manual has further been reviewed by the Federal Bureau of Roads Procedures Chief who has given tentative approval.

The matter is presented with a request that the previous manuals and approvals be formally rescinded and that the new procedures including the moving schedules be approved and authorized as the Department's operational procedures relating to relocation assistance and Right of Way property management.

Upon approval, Statewide implementation will be made on all new projects on a routine basis and on all current projects retroactively as concerns occupants who had not vacated as of January 2, 1969.

Necessary forms and other related material including informational booklets are in the printing process and the rate of implementation will be as rapid as possible dependent on staff, space and equipment logistics. (June 27, 1969)

Right of Way - Well Water Contamination
Dover Township

68 There is presented the matter of well water contamination relating to the Dover Maintenance Yard of the Department of Transportation.

On or about November, 1968, due to continuing storage of deicing chemicals in the above Maintenance Yard, adjacent wells supplying local home sites became contaminated. By emergency action the Dover Township Board of Health arranged with the Toms River Water Company for city water connections to replace the contaminated wells.

The Arthur C. Sigrist, Inc. construction company which performed the emergency work for the Water Company invoiced the State for the sum of $8,550. Although investigation confirmed the storage area of the Maintenance Yard as the source of water contamination and there appeared to be no feasible alternative to restoring the potable water supply other than the emergency action taken, the State has not previously been able to make payment due to lack of statutory authority.

On May 12, 1969 the Governor signed into law Chapter 39, P. L. 1969, copy attached. This statute specifically authorizes and permits the Department of Transportation to provide substitute potable water supplies in instances where the construction or maintenance heretofore undertaken by the Department of Transportation has resulted in the destruction or contamination to the extent of rendering the water supply below standards for potable water. This statute authorizes the Commissioner of Transportation to make such payment from Right of Way appropriations to the Department of Transportation.

Authority is requested to pay the invoice in accordance with the above from Bond money appropriated for Right of Way acquisition. (June 26, 1969)

At the trial before the court sitting without a jury, the State offered testimony in the amount of $76,000. The owners offered testimony in the amount of $147,000. The Complaint was filed in this matter on July 24, 1968 and a Declaration of Taking and Deposit in the amount of $75,750 was made on the same date. The Court rendered a verdict in the amount of $98,000. There were no legal errors at trial which would merit an appeal or a new trial.

It is recommended that the Judgment in the amount of $98,000 be accepted and that payment in the amount of $22,250, the difference between the Judgment and the amount of the deposit, together with interest at the rate of 6% from July 24, 1968 to the date of payment be paid. **(June 25, 1969)**

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest. (June 25, 1969)

Right of Way - Route 78

118 There is presented here the matter of the appeal by the State and the owner from an award of commissioners in the amount of $40,000 in the condemnation of porperty on Route 78, Section 3A, Parcel R22A, owned by John J. Spencer; et al.

At the trial before the court sitting without a jury, the State offered testimony in the amount of $29,000. The owners offered testimony in the amount of $71,650. The Court made an award of $37,000. There were no legal errors at trial.

It is recommended that the Judgment in the amount of $37,000 be accepted and that payment be made in the amount of $8,000, the difference between the total deposit and the Judgment, and that interest at the rate of 6% be paid on the amount of $17,400 from March 11, 1966 to June 12, 1968 and further interest on the sum of $8,000 from June 12, 1968 to the date of payment be paid. 119 There is presented here again the matter of the acquisition of property on Route 78, Section 4C, Parcel 40 owned by Stanley V. Kulkaski.

Fair market value was registered in the sum of $400.00 which was based on a fee appraisal, which sum was deposited into Court on September 27, 1967, although there was another appraisal from another fee appraiser in the sum of $2,000.00.

The Commissioners, after hearing the State's expert, the owner, appearing pro se, offered no testimony, rendered an award in the sum of $1,500.00 from which an appeal was taken by the State.

At the trial before the Court sitting without a jury, the State offered testimony in the sum of $500.00 and again the owner, appearing pro se, offered no testimony as to value. A verdict in the sum of $1,800.00 was rendered.

In view of the fact there is no ground for appeal from the Court's verdict, it is recommended that the Court's verdict be approved and the sum of $1,400.00, being the difference between the verdict and the amount of $400.00 deposited, be paid with interest from September 27, 1967, as computed by the Bureau of Titles. Right of Way - Route 295

There is presented again the matter of the acquisition of Route 295 (1953), Section 1H, Project I-295-1-(24) Repaupo Road to Oldmans Creek, Parcels 17A and 17B, owned by Melvin Lange and wife.

The land extended in a general northwesterly direction from the northwesterly side of Route 322 to Raccoon Creek. The Department of Transportation contended that the westerly portion of said tract, being tidal marsh and known as Parcel T-30, did not include such area in the commission action that was authorized on January 17, 1964 to institute condemnation proceedings for the acquisition of Parcels 17A and 17B.

The owners instituted action in lieu of mandamus to compel an action to condemn that parcel claimed to be tideland. At the trial of the aforesaid mandamus action, by reason of the evidence produced, and due to the fact that the said meadowland had been embanked pursuant to an Act of 1826, whereby the Union Meadowland Co. was formed, a judgment was consented to by Joseph Lipkin, Deputy Attorney General, wherein it was ordered that the condemnation complaint be amended so that the map and description include that portion of T-30 as shown in red on the attached map, and that the said parcels be reappraised and negotiations be resumed with the owners, and if said parcels cannot be acquired by agreement, these matters should proceed to a hearing. (June 25, 1969)

99 There is presented here the matter of the appeal by the State from an award of commission in the amount of $42,000.00. A judgment was entered against the State in the condemnation of property on Route 17, Section 4, Parcel R 95 A, owned by Joseph W. McGovern, et als.

At the trial before the Court and a Jury the owners were prepared to offer testimony in the amount of $60,000.00 and the State was prepared to offer testimony in the amount of $23,000.00 and the complaint filed on June 21, 1967. There was a deposit made on same date in the amount of $22,700.00. The settlement was in the amount of $31,000.00.

The State was represented by Fee Attorney, John A. Hila.

It is recommended that the settlement in the amount of $31,000.00 be accepted and that payment in the sum of $8,300.00 being the amount over and above the deposit into Court be paid together with lawful interest as computed by the Bureau of Titles. (July 1, 1969)

Right of Way - Route 24

100 There is presented the matter of the Commissioners' award in the condemnation of property on Route 24, Section 12, Parcel 31, in the Township of Summit, owned by Marian O'Brien.

At the hearing before the Commissioners an award of $13,000.00 was granted. Fair Market Value was registered in the amount of $9,900.00. The owners' witness testified to $14,000.00. The State's expert testified to $9,900.00 for the partial taking plus slope easement and damages to an improved parcel. There was a deposit paid in the court in the amount of $10,000.00 on May 1, 1967.

The state was represented by Fee Attorney David Rothberg.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest.

It is recommended that the award in the amount of $13,000.00 be approved and payment in the sum of $3,000.00, being the amount over and above the deposit paid in court, be paid together with lawful interest as computed by the Bureau of Titles. (July 1, 1969)

101 There is presented the matter of the award of commissioners of the condemnation of property on Route 80, Section 3B, Parcel 44, Township of Parsippany-Troy Hills, owned by Angelo A. Pasquale; et al.

Fair market value was registered in the sum of $51,800 and the State introduced testimony to that effect. The property owner testified to a value of $123,400.

Complaint was filed on June 19, 1966. On July 19, 1966 the sum of $64,200, the then fair market value was deposited and the same was withdrawn. Motion was made by the State to withdraw the difference between current fair market value and the initial deposit but the court denied the same.

The commissioners' award was in the amount of $76,600 which is considered excessive.

It is, therefore, recommended that the appeal already filed in this matter be approved. (July 1, 1969)

Right of Way - Route 168

102 There is presented the matter of the Commissioners' award in the condemnation of property on Route 168, Section 2, Parcel E3 in the Borough of Audubon Park owned by Audubon Mutual Housing Corp.; et al.

At the hearing before the Commissioners' an award of $4,200.00 was granted. Fair Market Value was registered in the amount of $3,000.00. The owner's witness testified to $12,800.00. The State's witness testified to $3,000.00 for the partial taking plus easement for drainage, to an improved parcel. There was a deposit paid in the court in the amount of $3,000.00 on May 29, 1967.

The State was represented by Fee Attorney John Daily.

It is recommended that the award in the amount of $4,200.00 be approved and payment in the sum of $1,200.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

Right of Way - Route 295

101 There is presented again the matter of the acquisition of Route 295 (1953), Section 1H, Repaupo Road to Oldmans Creek, Parcels R16A and R16B, owned by Howard S. Holladay and wife.

The land extended in a general northwesterly direction from the northwesterly side of Route 322 to Raccoon Creek. The Department of Transportation contended that the westerly portion of said tract, being tidal marsh known as Parcel T-30, did not include such area in the commission action that was authorized on January 17, 1964 to institute condemnation proceedings for the acquisition of Parcels R16A and R16B.

The owners instituted action in lieu of mandamus to compel an action to condemn that parcel claimed to be tideland. At the trial of the aforesaid mandamus action, by reason of the evidence produced, and due to the fact that the said meadowland had been embanked pursuant to an Act of 1826, whereby the Union Meadowland Co. was formed, a judgment was consented to by Joseph Lipkin, Deputy Attorney General, wherein it was ordered that the condemnation complaint be amended so that the map and description include that portion of T-30 as shown in green on the attached map, and that the said parcels be reappraised and negotiations be resumed with the owners, and if said parcels cannot be acquired by agreement, these matters should proceed to a hearing.

Services - Engineering
Route 47
John J. Kassner

14 Our agreement with John J. Kassner dated April 7, 1967 for engineering services in connection with Route 47 did not contemplate right of way or utility work. During the development of the plans it was decided to add these features. To provide compensation for this phase, over that previously provided an increase in the ceiling of $4,000 is required.

The Consultant's original scope of work did not include any design for a retaining wall that was eventually added to the project. The original contemplated cost of the construction project was $500,000, and it is now $600,000 with the additional $100,000 assignable to the retaining wall. The Consultant has indicated that the design of this wall costs approximately $5,500.

The present design ceiling is $60,500. It is recommended, in accordance with the aforementioned, that this ceiling be increased to $70,000. There is sufficient funding in the account to cover this additional expenditure. (July 15, 1969)

A commission hearing was later held and an award was rendered in the amount of $95,600 which was appealed by the State.

Subsequently, the Legal and Right of Way Divisions determined that settlement based on the award and including all claims against the State would be in the best interest of the State. Negotiations between Mr. Cerreto and the owner's attorney resulted in an agreement in the amount of $95,600. The agreements were executed as follows:

A Commission Hearing was held and an award of $23,000 plus interest was granted, which was later appealed.

Subsequently, during the Jury Trial proceedings a conference was held in the Judge's Chambers where the Trial Attorney contacted the Right of Way Division to settle this case. The owners indicated that they would accept a settlement figure in the sum of $17,800 which would include all claims against the State. Both the Right of Way and Legal Division agree that if this trial continued, a judgment could not be achieved under this amount and the settlement is under the Commission Award.

An agreement was executed as follows:

Parcel R4	Sarah Medwin and Abraham Medwin, h/h	Consideration $17,800 including deposit withdrawn from the court of $13,500.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $13,400. The variance being justified and the agreement being in the best interest of the State, approval is recommended.

The owner appealed the Judgment and the Department of Law negotiated a consent agreement in the amount of $30,700 with the owner to retain the dwelling for a deduction of $1,300. A commission action dated July 11, 1969 approved the Legal settlement. The parcels have been appraised and the Reviewer's registered Fair Market Value Determination is $3,250, which was offered to and refused by the owners who refused to make a demand or negotiate.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple subject to any public utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcels R67A and E67D in the place and instead of those previously filed. Right of Way - Route 80

There is presented again the matter of acquisition of property on Route 80 (1953), Section 1G, Federal-aid Project I-80-1-(13) 17, From Pequest Road to Waterloo, Parcel 4, owner, Jean Ryan, widow.

The Commissioner, on February 27, 1967, approved the institution of condemnation proceedings for Parcel 4, as the owner had refused the State's offer of $6,000. and demanded $15,000., which was considered excessive. The Fair Market Value of $6,000. was deposited in the Superior Court.

Subsequently, the Legal Division requested that an additional appraisal be secured and simultaneously therewith, it was determined that the owner's southerly remainder of 13.666 acres, with substantial improvements thereon, would be landlocked after the taking. The Fair Market Value was re-registered in the amount of $57,000. and the damaged remainders have a value of only $6,000.

Inasmuch as the value of the entire property is practically equivalent to the value of the taking, it is deemed in the best interest of the State to acquire this owner's entire property, which includes both the northerly and southerly remainders, subject to any public utilities existing in the premises.

It is further recommended that authority be granted to amend the complaint and descriptions presently on file and to substitute new maps and descriptions covering Parcels 4, X4B and X4C in place and instead of those previously filed which cover Parcel 4 only.

Authority is further requested to deposit the additional sum of $57,000. in the Superior Court which, when added to the $6,000. already deposited, will equal the value of the entire property in the sum of $63,000.

Authority is requested to dispose of the improvements to the road contractor by public auction or by sealed bids. (August 1, 1969)

All of the terms of the agreement have been consummated, and it is recommended that the deed be executed and authority granted to make delivery of the same.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Court $4,500.

It is further recommended that authority be granted to enter upon the owner's remaining lands to remove in its entirety the frame and metal garage lying partly within the highway right of way and partly outside said right of way.

It is recommended that the settlement be approved since it reduces the award of the Commissioners by $2,000.00; is fair and reasonable and experience with juries in Bergen County would indicate that a jury verdict would equal, if not exceed, the amount of the settlement and for the further reason that it is in the public interest.

It is recommended that the award in the amount of $41,500.00 be approved and payment in the sum of $5,000, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (August 1, 1969)

The parcels required for the highway having been appraised and the Reviewer's Fair Market Value Determination being $92,350 and the value of the damaged remainder being $83,650 for a total of $176,000, the proposed settlement appears to be fair and reasonable.

The purpose of acquiring the remainder is that by previous understanding reached with the Department of Conservation and reported in the Right of Way Division's May 1, 1969 memorandum of record of a meeting between Commissioner Goldberg and Commissioner Roe, it has been agreed that the Transportation Department would acquire the remainder which lies in a proposed Department of Conservation recreation area and at the appropriate time arrangements would be made for the Department of Conservation to reimburse the Transportation Department for this remainder in a negotiated amount of $101,485 which exceed the cost to the Transportation Department at which time a deed of conveyance would be submitted for execution and delivery to the Department of Conservation.

Alternatively, arrangements for the considerations to be paid to the Department of Conservation for parcels in their ownership which are needed by the Transportation Department in conjunction with the construction of Route 80 may be adjusted during negotiations to provide for an exchange arrangement for the conveyance of the subject remainder.

The matter is submitted with a suggestion that it be approved. It is recommended that condemnation proceedings previously authorized be discontinued, and authority is also requested to withdraw the sum of $92,350 previously deposited with the Superior Court under the Declaration of Taking.

Claims - Settlement

2 This claim arises out of the captioned accident which occurred on the northbound shoulder, Route 9, Sayreville, New Jersey, and involved personal injury to Edward Mitko, Division of Maintenance. As a result of this accident, the New Jersey Department of Transportation was required to expend the sum of $2,670.69 for medical treatment and Workmen's Compensation payments made on behalf of Mr. Mitko. We were advised by Mr. Mitko's attorney that additional medical expenses in the vicinity of $1,000.00 were incurred by Mr. Mitko, which treatment was unauthorized by the State and will have to be paid by him out of his third party settlement.

Mr. Mitko through his attorney instituted suit against the third party involved in the accident of October 25, 1966. The attorney representing our employee has expressed his fears that due to the weakness of his case that he may not be successful in getting it past the judge, and if he could get his case to the jury, a favorable verdict was quite unlikely. In this event, the Department of Transportation would of course receive nothing toward the satisfaction of its lien. The third party's insurance company offered a settlement of $3,000.00 and the employee's attorney suggested a net recovery of $500.00 for the Department of Transportation. This offer was subsequently increased to $3,500.00 with a porportionate increase in the recovery for the Department to $567.00.

I am attaching copy of letter dated July 29, 1969 from Andrew V. Clark, Esq. of the law firm of Seaman and Clark, Esqs., covering his legal position, which is self-explanatory.

It is my recommendation, therefore, that the above offer of settlement receive favorable consideration in accordance with Mr. Levine's memorandum dated August 13, 1969, accompanying papers attached hereto, and the recommendation of the New Jersey Department of Transportation Deputy Attorney General. (August 21, 1969)

Condemnation proceedings were previously authorized on June 24, 1965 for Parcels 1A & 1B in the name of Ronald A. Schiavone and Raymond J. Prior to the filing of a complaint, a portion of this tract was sold and ownership became vested in the Lamington River Company (A New Jersey Corporation) on June 2, 1965. Condemnation proceedings were continued by commission action dated February 21, 1968 which resulted in the re-registered Fair Market Value of $39,000 being deposited with the Court on May 20, 1968. By commission action dated June 24, 1968 authority was granted to deposit an additional sum of $9,200 in order to make the total on deposit equal a subsequent Fair Market Value re-registration. It is recommended that authority be granted to institute condemnation proceedings for the Acquisition of these parcels in fee simple, subject to any public utilities existing in the premises; and that the previous action of September 8, 1965 for Parcel R3 be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and description of Parcels R3, L3C and L3D in the place and instead of those previously filed.

Inasmuch as the sum of $21,210 was previously deposited in the Superior Court for Parcel R3; authority is now requested to deposit the sum of $15,940. which represents the difference between the old and new fair market value. (AUGUST 19, 1969)

Since the award exceeds the state's appraisal and testimony by $10,400.00, it is recommended that appeal be taken and a protective appeal has been filed. (August 25, 1969)

Right of Way - Route 17

109 There is presented here the matter of the Commissioners' award in the condemnation of property on Route 17, Section 5, Parcel 143, in the Borough of Waldwich owned by Veronika Alexander, et als.

Right of Way - Route 35

110 There is presented here the matter of the commission award in the condemnation of property on Route 35, Section 8, Parcel E181 owned by Pak Yin Wong.

At the hearing before commissioners the owners offered testimony in the amount of $7,750. The State offered testimony in the amount of $400. Right of Way - Route 55F

111 There is presented the matter of the Commissioners' award in the condemnation of property on Route 55F, Section 6, Parcel 43A, in the City of Vineland, owned by Alfred Schindel, et als.

At the hearing before the Commissioners, an award of $17,000.00 was granted. Fair Market Value was re-registered in the amount of $13,100.00. The owner's witness testified to $22,000.00. Although the State's witnesses were not available to testify, Outside Counsel's request for a postponement was rejected and the hearing proceeded without the State's witnesses. This is a partial taking of an improved parcel. There was a deposit paid into court in the amount of $13,100.00 on May 31, 1967. The complaint was filed on May 31, 1967.

The State was represented by Fee Attorney Steven L. Lefelt.

It is recommended that the award in the amount of $17,000.00 be approved and payment in the sum of $3,900.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended by trial counsel, as experience with juries in Cumberland County would indicate that a jury verdict would equal, if not exceed, the amount of the settlement. Furthermore, this case being more than two years old, the cost and expense of an appeal and trial by jury, plus the continued accrual of interest pending the appeal, must be considered in the recommendati[illegible] to accept the award. Approval of the Commissioners' award is therefore recomm[illegible]d as in the public interest.

At the hearing before the Commissioners, an award of $3,775.00 was granted. Fair Market Value was re-registered in the amount of $2,400.00. The owner's witness testified to $6,000.00. There was a deposit paid into court in the amount of $8,850.00 on July 11, 1968.

The State was represented by Fee Attorney John W. Trimble.

No appeal is recommended since this condemnation interferes with the use by the owner of an improved building on his remainder and since experience with juries in Camden County on similar cases would indicate that their verdict would at least equal, if not exceed their award, which is not excessive, is fair and reasonable; and in the public interest.

It is recommended that the award in the amount of $12,000.00 be accepted and payment in the sum of $3,150.00, being the amount over and above the deposit in court, be paid together with interest as computed by the Bureau of Titles. (August 22, 1969)

Right of Way -Route 280

115 There is presented here the matter of the award of Condemnation commissioners entered against the State in the condemnation of property on Route 280, Section 7, Parcel E 3R65, owned by Ring Bros., Inc., et als.

At the hearing before the commissioners the owners offered testimony in the amount of $47,041.00 and the State offered testimony in the amount of $14,000.00. Fair Market Value was established in the amount of $11,830.00 the complaint was filed on April 22, 1965 and a deposit made on October 4, 1967 in the amount of $10,733.00. The award was in the amount of $29,344.00

It is recommended that the award in the amount of $29,344.00 be appealed since it is grossly in excess of the State's registered Fair Market value. In addition the owner's real estate expert offered no comparable sales to support his value. (August 22, 1969)

Right of Way - Route 17

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 17, Section 7, Parcels 110A & 110B, in the Town of Woodridge, owned by The Cardin Company, et als.

At the hearing before the Commissioners, on August 7, 1969, an award of $40,000.00 was granted. Fair Market Value was registered in the amount of $24,500.00. The owner's witness testified to $153,715.00. The State's witness testified to $24,500.00 for the partial taking plus slope easement of an improved parcel. There was a deposit paid into Court in the amount of $12,600.00 on September 21, 1967. The Complaint was filed on June 16, 1967.

The State was represented by Fee Attorney Michael Cerreto.

Since the award exceeds the state's appraisal and testimony by $15,500.00, it is recommended that appeal be taken and a protective appeal has been filed. **(August 26, 1969)**

Right of Way - Route 80

There is presented the matter of the settlement of the condemnation of property on Route 80, Section 3C, Parcels 43A and 43B, Morris County, owned by Mrs. Mabel V. D. Hapward, widow; et al.

At settlement negotiations, I procurred authority from James V. Hyde, Jr., Director, Right of Way Division, to settle this matter in the amount of $8,250. The State's fair market value is $7,000. This is a partial taking and therefore involves a somewhat complicated question of damages to the remainder. In addition, there is a substantial question with respect to the damage done by the State to the septic and well systems on the property. Accordingly, this settlement figure is considered highly favorable to the State.

The property owner is willing to accept this figure inclusive of interest and all claims against the State in complete settlement.

Approval of this settlement and a recommendation to Right of Way to procure appropriate agreements is requested.
(August 26, 1969)

A judgement was entered against the State in the condemnation of property on Route 280, Section 8, Parcel R3A, located in the Town of Kearny, owned by the Town of Kearny, a municipal corporation.

At the trial before a court and a jury, the owners offered testimony in the amount of $914,656.00. The State offered testimony in the amount of $468,600.00 and $402,000.00 for a partial taking of an unimproved parcel. The Fair Market Value was registered in the amount of $468,600.00. The Complaint was filed on March 8, 1968. There was a deposit paid into court in the amount of $468,600.00 on March 8, 1968.

The State was represented by Fee Attorney Michael Cerreto.

It is recommended that the judgement in the amount of $825,625.00 be appealed on the grounds of error based upon prejudical remarks by the Trial Judge and that authorization for filing the appeal and for ordering the transcript of the testimony taken at the Jury Trial be approved. A protective appeal has been filed. (August 26, 1969)

98 **Right of Way - Route 78**

There are presented report and appraisal with map and description on Route 78, Section 5D, Federal-aid Project I-78-5-(3), From Springfield Avenue to Garden State Parkway, Parcel E407, Shirley Grossberg and Milton Grossberg, H/

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this easement parcel, subject to any public utilities existing on the premises. The owner refused a suggested settlement in the sum of $2,000. and demanded $3,000., which is considered excessive.

This easement parcel was appraised and the Reviewers registered Fair Market Value determination is $2,000.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2,000. **(September 8, 1969)**

99 **Right of Way - Route 440 Freeway**

There is presented again the matter of condemnation of property on Route 440 Freeway, Section 1, Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized for Parcels 191 A,B,C,D,E, and 192, Sugarbush Corp. (A N.J. Corp.) on October 9, 1967 at which time the State's registered Fair Market Value of $102,700 was offered to and refused by the owner whose demand of $912,000 was considered excessive. Subsequent appraisal up-datings to the date of the filing of the complaint resulted in the State's Fair Market Value being re-registered in the amount of $454,400, which sum was offered to and refused by the owner who continues to refuse to make a demand. Two deposits totaling $454,400 have been made into the Superior Court.

Subsequently it was determined by our Engineers that a drainage easement was required and Parcel ER191H was added to the map. Appraisal addendums have been received which reflect no change in the State's re-registered Fair Market Value as a result of the addition of this minor drainage easement.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of drainage easement Parcel ER191H, subject to any public utilities existing in the premises and also made subject to a proposed sewer line easement to the Township of Hamilton which will traverse the new drainage easement, and that the complaint on file be amended to substitute the map and description for Parcels 191A,B,C,D,E, 192 and ER191H in the place and instead of those previously filed.

Further authority is requested to amend the Declaration of Taking on file to include Parcel ER191H. **(September 8, 1969)**

It is therefore recommended that the aforementioned Commission Action be corrected to set forth the Judgment in the amount of $5,200 and it is further recommended that payment be made in the amount of $2,300 being the difference between the Judgment and deposit, together with lawful interest as computed by the Bureau of Titles. SCHEDULE OF APPROVALS - SEPTEMBER 18, 1969

Administration Items

Highway Relocation Assistance - Provided for all Right of Way Projects that are under Agreement (1968 Hwy. Act)

1 It is recommended that the attached project agreements in duplicate be approved and executed to include payments and services provided in the Federal-aid Highway Act of 1968, Chapter 5 - Highway Relocation Assistance.

This modification includes all projects on the attached listing pages 1-7, that are presently under agreement. There is no additional funding being provided at this time, but individual projects may be modified to increase the allocation of Federal participation at any time during the remaining life of the project. (September 17, 1969)

Claims - Settlement

2 The Department of Transportation is carrying a claim against Quinn Freight Lines in the amount of $2,277.65 in connection with damage sustained by departmental guard rail on June 27, 1968 involving a vehicle owned by Quinn Freight Lines, being operated by Richard F. Hurley. The department's labor, equipment and material charges amounted to $2,070.59 to which a 10% Department overhead was added, making a total claim of $2,277.65.

The attorneys representing the Quinn Freight Lines have offered the sum of $1700.00 in full settlement of the Department's claim contending that the guard rail for which they were being billed had been damaged in previous accidents. They also furnished the Claims Bureau with a statement from an outside witness who was followin their vehicle at the time the accident occured. I am attaching, hereto, copy of said statement which is self-explanatory.

You will note from the witness' statement that he was the third car behind the truck in question and indicates that all vehicles were moving slowly at the time the mishap occurred. The driver of the Quinn Freight Lines told the witness at the scene that "he was holding his brakes on all the way and did not know what could have happened."

Giving due consideration to all the circumstances involved in this case it might be difficult, if not impossible, to prove negligence in the event of suit. The attorneys for Quinn Freight Lines indicate that their client is amicable to a fair and just settlement of the claim and feel their offer of $1700.00 is reasonable. In view of the foregoing we feel the offer of settlement is a reasonable figure and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that it receive favorable consideration and be approved. (September 16, 1969)

Concerning Route 29 Freeway, Section 11, Federal Project U-198-(19). By action dated September 17, 1965 the Commissioner approved the Co-operative Agreement between the Department of Transportation and the City of Trenton.

The terms of this agreement provided that the City of Trenton, through its Local Public Agency, would appraise and purchase properties designated on the above General Property Parcel Map as being required for highway purposes, wherein these parcels would be subsequently conveyed to the State by deed and upon approval of title, payment in the form of reimbursement for the authorized purchase price and incidential expenditures would be made.

Heretofore, the Commissioner of the Department of Transportation accepted the deed subject to the provisions as to use contained in the Urban Renewal Plan dated August 1, 1964 and to make payment upon approval of title. Included in this commission action is the following paragraph, "Excluded from the above is payment for Parcel 2R2 for which the City of Trenton has not obtained title. Acceptance of deed and payment will be made upon receipt of title by the City of Trenton."

The City of Trenton has now obtained title to Parcel 2R2; therefore, there is submitted herewith invoice together with supporting data in the sum of $1,666.25 which consist of authorized consideration of $563.50 and acquisition costs in the sum of $1,102.75.

Authority is requested to make payment and to accept the revised deed which now includes Parcel 2R2. (September 16, 1969)

Condemnation proceedings were previously authorized for Parcel R124 + remainder on June 6, 1968 at which time the owner's agent refused to state a demand. The State's registered Fair Market Value of $30,750 was deposited with the court on June 14, 1968.

By commission action dated December 31, 1968 authority was granted to amend the complaint on file and to eliminate the acquisition of the remainder designated as X124R inasmuch as the State's trial attorney had consented to the entry of a Court Order requiring the State to amend the complaint to limit the area of taking to Parcel R124.

As a result of the State's trial attorney consenting to the entry of this Court Order, amended appraisals were secured which resulted in the re-registered Fair Market Value of $10,800 being offered to and refused by the owner's attorney whose demand of $170,000 for Parcels R124 and R123 and whose demand that Parcel X123B be eliminated is considered excessive.

Authority is requested to withdraw the sum of $19,950 from the Court, leaving on deposit the amount of $10,800 which represents the re-registered Fair Market Value of Parcel R124. (September 16, 1969)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $14,500. (September 16, 1969)

There is presented again the matter of condemnation of property on Route 78, Section 3D, Projects I-78-3-(4) and LSI-78-3-(3), Herbert M. Ford and Ludlow B. Ford, h/w. Condemnation proceedings were previously authorized for Parcels 7A, 7B, and 7C on October 28, 1965, at which time the owners demand of $15,000 was considered excessive. Condemnation proceedings were previously authorized for Parcels L7D and L7E on November 15, 1967, at which time the owners demand for these parcels in the sum of $10,000 was considered excessive. A deposit in the amount of $6,400, representing the Fair Market Value of Parcels 7A, 7B, and 7C was made with the court on August 9, 1966.

Subsequently, inasmuch as these parcels are contiguous and in the same ownership it was determined that they should be consolidated and appraised as one property, which is in accordance with standing legal instruction, and which has resulted in establishing the new Fair Market Value in the sum of $13,450. This sum has been offered to and refused by the owners, whose demand of $24,000 is considered excessive.

Authority is therefore requested to deposit the additional sum of $7,050 in the Superior Court making the total on deposit the new Fair Market Value determination of $13,450.

The owner refused a suggested settlement in the sum of $33,500. and demanded $37,500., which is considered excessive.

This parcel was appraised and the Reviewer's registered fair market value determination is $33,500.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $33,500.

Upon taking of possession, authority is requested to dispose of the dwelling and garage to the road contractor by public auction, or by sealed bids. (September 16, 1969)

Subsequently, due to a map revision, Parcel 18 was changed to Parcel R18. The parcel was re-appraised and the reviewer's registered Fair Market Value determination is $12,000. Further negotiations with the owner resulted in the owner's refusal of the State's offer of $12,000, and has now made a demand of $90,000 which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R18 in fee simple subject to any public utilities and an easement to Transcontinental Pipe Line Corporation existing the premises, and that the previous action, dated February 5, 1965, covering Parcel 18, be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R18 in the place and instead of those previously filed. Authority is requested to deposit an additional sum of $450, with the Superior Court, when combined enter the $11,550 already on deposit will make a total on deposit of $12,000. (September 18, 1969)
